Best camera app for galaxy s9. Galaxy s9 plus camera app. How to set samsung s9 camera. Google camera app galaxy s9. How to use samsung galaxy s9 camera. Samsung galaxy s9 plus camera app. Samsung galaxy s9 camera app. Best camera app for samsung galaxy s9 plus.

Galaxy S9 and S9+ feature some significantly new camera features such as the dual-aperture lens, and super slow motion mode. As the first step of trying the new camera in Galaxy S9 and S9+, you need to start Galaxy S9 camera app first. In addition to tapping the camera app icon, you can have several other ways to start Galaxy S9 camera app in S9 and S9+. This Galaxy S9 camera guide shows you the six ways to open Galaxy S9 camera app in your Samsung Galaxy S9 and S9+. #1. Use Galaxy S9 camera quick launch to start Galaxy S9 camera app The fastest way to launch Galaxy S9 camera app is to use Galaxy S9 camera quick launch feature, which is enabled by default. You can quickly press the power button twice to start Galaxy S9 camera app immediately. Samsung named this as Galaxy S9 camera quick launch. The good thing about Galaxy S9 camera quick launch is that it works at any times: when the screen is on or off, or when you are using any apps, or when the screen is locked or unlocked. When you use the Galaxy S9 camera quick launch first time, it will remind you of this feature as shown below. You can then keep it on or turn it off if you want. If you want, you can enable or disable Galaxy S9 camera quick launch in Galaxy S9 camera settings. #2. Use camera app shortcut on Galaxy S9 lock screen to start Galaxy S9 camera app. By default, in Galaxy S9 lock screen as shown below, there are two app shortcuts on the left and right sides of the bottom. One is the phone app for you to make emergency calls without unlocking the phone. And the other is the camera app as shown below. Of course, you can use other apps to replace them in Settings — Lock screen and security — App shortcuts. You can tap the camera app icon to open Galaxy S9 camera app without unlocking the screen. If you launch Galaxy S9 camera app without unlocking the screen, you can only access photos taken in this session. You cannot access any other photos or pictures saved in the phone before the screen was locked. This is a security feature, not a bug. For example, if someone gets your phone, he/she is unable to check photos in the phone unless he/she can unlock the phone. #3. Use camera app icon in Galaxy S9 home screen to start Galaxy S9 camera app In Galaxy S9 Home screen, by default, Samsung added the camera app in the favorite tray as shown above. Of course, you can add the camera app shortcut to Galaxy S9 home screen manually. Most people start Galaxy S9 camera app by tapping the icon of the camera app as shown above. Anyway, using Galaxy S9 camera quick launch should be faster if you get used to it. #4. Use camera app icon in Galaxy S9 apps screen to start Galaxy S9 camera app All normal apps installed in Galaxy S9 should appear in the apps screen (apps drawer). So, you can easily find the camera app in Galaxy S9 apps screen. Just tap the icon to open Galaxy S9 camera app, as you did in Galaxy S9 Home screen. #5. Use Bixby voice command to start Galaxy S9 camera app Not all owners of Galaxy S9 and S9+ like Samsung's Bixby. But if you want to use voice commands to start and close apps, then the Bixby voice is probably the best choice in Galaxy S9 and S9+. You can issue voice commands "Open the camera" when holding the Bixby button in the left side of the phone (below volume keys. See Galaxy S9 layout page.) As shown below, you can easily start Galaxy S9 camera app immediately with the simple command. In addition to starting Galaxy S9 camera app, you can also use Bixby voice command to close the camera app. As shown above, you can use Bixby voice command "Stop the camera" to exit Galaxy S9 camera app. If you disabled the Bixby button, you then cannot use this method to start camera app in Galaxy S9 and S9+. #6. Use Google Assistant to start Galaxy S9 camera app In Galaxy S9 and S9+, Google Assistant is also available. You can hold the home button to bring up Google Assistant. Alternatively, you can use "OK Google" to wake up Google Assistant. The voice command used in Google Assistant to start Galaxy S9 camera app "Start the camera" is similar to that used in Bixby. Of course, there are several variations of the command you can use to open Galaxy S9 camera. Can you use these six ways to start Galaxy S9 camera app in Galaxy S9 and S9+ now? Do you know how to use Galaxy S9 camera quick launch? If you have any questions or encounter any problems on starting Galaxy S9 camera app in Galaxy S9 and S9+, please let us know in the comment box below. The community will help you find the answer. For the user guide for new features of Samsung Galaxy S9 and S9+, please check Galaxy S9 new features guides page. For using Galaxy S9 camera, please check Galaxy S9 camera guides page. For accessories for Galaxy S9 and S9+, please check Galaxy S9 accessories guides page. For the official Samsung Galaxy S9 and S9+ user guides (in PDF format), please check Galaxy S9 user guides page. Official Disney+ app for Indonesia Disney's own official streaming app Watch hundreds of Asian movies and series All HBO content on your Android The official radio app for Samsung smartphones TV channels from all over the world right at the tip of your fingers Enjoy the TV in India, directly on your smartphone TV programming and live broadcasts from Canal+ France As explained in the new features of Galaxy S9 and S9+, the camera in both phones was significantly improved with an updated Galaxy S9 camera app. Samsung revamped the user interface of Galaxy S9 camera app to make it more user-friendly (arguably) with different ways to access Galaxy S9 camera modes and effects. This new Galaxy S9 camera app interface is different from that in Galaxy S8. This Galaxy S9 camera guide explains the items in Galaxy S9 camera app user interface (UI) and how to use them. How to access Galaxy S9 camera app? There are at least 6 different ways to access Galaxy S9 camera app in Galaxy S9 and S9+: You can also access the camera app from Galaxy S9 edge screen. Although the identical Galaxy S9 camera app will be used, there are some restrictions if you access the camera without unlocking Galaxy S9 or S9+. How to use Galaxy S9 camera app? By default, when you start the Galaxy S9 camera, the Auto mode is activated as shown below. In the Auto mode, in addition to the navigation bar in the bottom, you can find at least 11 items as marked in the screenshot: Shutter button. Video recording button. Shortcut to Gallery app. Galaxy S9 camera modes. Switch between two rear cameras (Galaxy S9+ only). Bixby vision. Galaxy S9 camera settings. Full-screen view. Turn on/off the flash. Galaxy S9 camera effects. Switch between front and rear cameras. 1. Galaxy S9 camera s9 Shutter button You can press this shutter button to take photos immediately. If you tap and hold (long tap) the shutter button, the camera will take photos in burst mode. Photos taken in Galaxy S9 burst mode will be always saved in the internal storage even you set photo location in the micro SD card. 2. Video recording button You can tap the video recording button to record a video immediately. You can also tap and hold the recording button to frame the video. 3. Shortcut to Gallery app To the right of the shutter button, the shortcut to Gallery app allows you to access the Gallery app directly from Galaxy S9 camera app. If you start Galaxy S9 camera when the screen is still locked, then you can only check photos taken in the current session. You cannot access any other photos or pictures on the phone in the Gallery app. You cannot delete videos recorded in the current session. You must unlock the phone first. 4. Galaxy S9 camera modes Samsung arranged Galaxy S9 camera modes in the top of the Galaxy S9 camera app. You can tap individual mode to use it. For example, if you want to manually control the dual-aperture feature, you need to enter Pro mode. If you want to record super slow-motion videos, you may tap super slow-mo mode. You need to swipe left and right to reveal all Galaxy S9 camera modes added to the UI. You can manage these Galaxy S9 camera modes in the camera settings (7). 5. Switch between two rear cameras (Galaxy S9+ only) Galaxy S9+ features two rear cameras and Galaxy S9 only has one. So, for Galaxy S9+ users, you have the option to switch to the second rear camera (telephoto lens) if you need it. Please do not confuse this with the dual-aperture in Galaxy S9 camera. 6. Bixby vision Bixby vision is part of Samsung's Bixby Assistant. Although many Galaxy S9 owners don't like Bixby Home and want to remove the Bixby Home from Galaxy S9 Home screen, Bixby vision is quite useful and relatively accurate. Bixby vision can detect the object in the focus, and give you some relevant info. 7. Galaxy S9 camera settings You can access all Galaxy S9 camera settings on one page. Please refer to Galaxy S9 camera settings guide for detailed explanations of the settings for Galaxy S9 and S9+ cameras. 8. Full-screen view In Galaxy S9 and S9+, the 12MP camera photos are in 4:3 aspect ratio (4032*3024). So, in the preview window in Galaxy S9 camera app, the screen is not fully utilized so that you can save the photo exactly as shown on the screen. If you choose a 16:9 photo (for which the largest size is 9.1MP), more screen will be used. You can turn on full-screen view if you want. But in the full-screen view, the photo saved will be different from what you see on the screen. It will be cropped. 9. Turn on/off the flash You can turn on, turn off the flash for Galaxy S9 camera. You can also set the flash as auto, which will turn on and off flash based on lighting conditions. In most scenarios, you should avoid flash for Galaxy S9 camera, which may reduce photo quality substantially. 10. Galaxy S9 camera effects You need to tap camera effects icon to add effects to your photo. 11. Switch between front and rear cameras You can switch to the front camera by tapping this camera switch icon. Besides, you may use touch screen gestures to switch cameras. You can just swipe upwards or downwards on the preview screen to switch between front and rear cameras. Why I got a different Galaxy S9 camera app interface? You may get a different Galaxy S9 camera app interface if: you are in the easy mode. You can choose the standard mode to turn off the easy mode in Settings —Display —Easy mode. you are using the front camera. There are less and slightly different options for the front camera in Galaxy S9 camera app. you re using other Galaxy S9 camera modes other than Auto mode. For example, as shown below, you have more options when using Galaxy S9 camera Pro mode. Do you know how to use Galaxy S9 camera app in Galaxy S9 and S9+? If you have any questions or encounter any problems with using Galaxy S9 camera app in Galaxy S9 and S9+, please let us know in the comment box below. The community will help you find the answer. For the user guide for new features of Samsung Galaxy S9 and S9+, please check Galaxy S9 new features guides page. For using Galaxy S9 and S9+, please check Galaxy S9 how-to guides page. For using Galaxy S9 camera, please check Galaxy S9 camera guides page. For accessories for Galaxy S9 and S9+, please check Galaxy S9 accessories guides page. For the official Samsung Galaxy S9 and S9+ user guides (in PDF format), please check Galaxy S9 user guides page.
